

Pedro Lucas da Costa Vidal

Back-End Developer

Fortaleza, Ceará, Brazil • pedrolucasep5100@gmail.com • (88) 99403-3573

• linkedin.com/in/pedrolucas-dev • github.com/pedro-lucas-okb

Professional Summary

.NET Developer with nearly 2 years of experience developing and maintaining REST APIs, currently serving as tech lead for a project with 1,300+ potential users. In addition to C#, experienced with Supabase, Docker, CI/CD, and RabbitMQ. Also applies best practices such as Clean Architecture, Clean Code, and DDD.

Education

Federal University of Ceará (UFC)

Bachelor's Degree in Computer Science

Ceará, Brazil

2019 - 2026

Leadership Activities

LearningLab

Technical Lead (Tech Lead)

Remote

March 2026 - Present

- Managed and prioritized tasks in ClickUp, organizing workflow and progress visibility for a team of 5 people.
- Led code reviews through pull requests, averaging 2 per week, ensuring quality and adherence to the project's technical standards.
- Promoted code and design best practices, such as Clean Code and SOLID, making the repository more organized and maintainable.

Experience and Projects

LearningLab

.NET Developer

Remote

October 2025 - Present

- Standardized the use of .env files for development and production, preventing sensitive data exposure in the codebase.
- Refactored legacy code by removing obsolete snippets, resulting in 82,000+ lines of code removed.
- Improved password hashing security by implementing random salt values, preventing duplicate hashes and increasing user security.
- Implemented rate limiting on 3 endpoints, using users' IP addresses and emails as parameters to protect the system against brute-force attacks.
- Implemented unit and integration tests with xUnit and Postman, improving feature stability.

E-commerce Order Processing

RabbitMQ + Microservices

GitHub

January 2026 - March 2026

- Implemented microservices with asynchronous processing via RabbitMQ, splitting orders into payment, inventory, and notification workers.
- Developed a REST API with ASP.NET Core Minimal APIs and persistence with Entity Framework Core and PostgreSQL.
- Configured CI/CD with GitHub Actions, automating builds and test execution on every push.
- Wrote unit and integration tests with xUnit, Testcontainers, and FluentAssertions using PostgreSQL and RabbitMQ in the test environment.

Simplified Bank

Financial Transactions API

GitHub

June 2025 - October 2025

- Architected and developed an API with 13 endpoints following Clean Architecture, ensuring layer separation and maintainability.
- Implemented JWT authentication and password hashing to protect sensitive user data.

- Solved concurrency issues in simultaneous transactions with row versioning in SQL Server, preventing balance inconsistencies.
- Applied Repository, Unit of Work, Mediator, and SOLID/DDD principles, resulting in testable and extensible code.

FASTEF and UFC

Back-End .NET Developer Intern

Remote

March 2024 - September 2024

- Contributed to the development of an event management API using .NET, SQL Server, and JWT authentication.
- Participated in an agile development process with Scrum, including dailies, sprints, and retrospectives.
- Collaborated with front-end and back-end teams, improving technical communication and teamwork.
- Implemented containerization with Docker to standardize development environments.

Skills

- **Back-End:** C#, .NET, ASP.NET Core, REST APIs, Minimal APIs, Entity Framework, JWT
- **Front-End:** React, Blazor, HTML, CSS, JavaScript, Tailwind CSS
- **Architecture and Best Practices:** Clean Architecture, SOLID, Clean Code, Domain-Driven Design (DDD), Repository, Unit of Work, Mediator
- **Databases and Messaging:** SQL Server, PostgreSQL, Supabase, SQLite, RabbitMQ
- **AI Agents:** OpenCode, Claude Code, GitHub Copilot
- **DevOps and Version Control:** Docker, Docker Compose, Git, GitHub, GitHub Actions, CI/CD
- **Testing and Security:** xUnit, Postman, Bruno, Testcontainers, FluentAssertions, API security, cybersecurity
- **Methodologies and Leadership:** Scrum, Kanban, code review, standards definition, task prioritization
- **Languages:** English (B2 upper-intermediate/advanced)

Additional Education and Certifications

- Foundational C# with Microsoft - freeCodeCamp and Microsoft
- Scrum Foundation Professional Certification (SFPC) - CertiProf
- EF SET English Certificate 60/100 (B2 Upper Intermediate)
- Docker Essentials: A Developer Introduction - IBM
- Git Training - Simplilearn
- Introduction to Cybersecurity - Cisco
- Machine Learning - UECE and Lead Dell
- Python Immersion: From Excel to Data Analysis - Alura
